Soup

Soul Kitchen - a female founded brand

Created by Bella, inspired by her family's love of homemade soup and a mission to improve quick lunches. Frustrated by the lack of natural options at university, she began crafting instant soups from real vegetables. No fillers - just flavour.

A Range To Suit Every Office

With vibrant flavours these soups suit a wide mix of tastes and diets. Just add hot water for a quick, satisfying meal - ideal for desk lunches, meeting rooms or kitchen areas. Available in mixed packs or single flavours to suit your space.

Support Wellness and Inclusion

Made with natural, honest ingredients and nothing artificial, these nutritious soups are vegan, gluten-free and full of real veg. With no palm oil or preservatives and low-impact packaging, they support healthy habits and align with workplace sustainability goals.

Grab your favourite mug or bowl (travel mugs work a treat too) and add 125ml freshly boiled water. Empty your sachet into the mug (on top of the water) and add a further 125ml of hot water. Stir well, rest for 2 minutes then enjoy!
