# Soup

## Soul Kitchen - a female founded brand

Created by Bella, inspired by her family's love of homemade soup and a mission to improve quick lunches. Frustrated by the lack of natural options at university, she began crafting instant soups from real vegetables. No fillers - just flavour.

## A Range To Suit Every Office

With vibrant flavours these soups suit a wide mix of tastes and diets. Just add hot water for a quick, satisfying meal - ideal for desk lunches, meeting rooms or kitchen areas. Available in mixed packs or single flavours to suit your space.

## Support Wellness and Inclusion

Made with natural, honest ingredients and nothing artificial, these nutritious soups are vegan, gluten-free and full of real veg. With no palm oil or preservatives and low-impact packaging, they support healthy habits and align with workplace sustainability goals.

Grab your favourite mug or bowl (travel mugs work a treat too) and add 125ml freshly boiled water. Empty your sachet into the mug (on top of the water) and add a further 125ml of hot water. Stir well, rest for 2 minutes then enjoy!
